### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Leonard Mitchard on 9/27/2007.

Claim 19, replace "separating at least a portion of" with "performing azeotropic distillation in said single distillation means to separate".

The following is an examiner's statement of reasons for allowance:

The outstanding rejection under section 103 over Karim is withdrawn since this reference fails to provide any reason to use a single distillation means. As presently claimed.

While not acquiescing in any possible rejection, but solely to expedite the captioned application, Applicant has approved the forgoing amendments, which clarify the feeds and products of the single distillation means.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
